Hi Bruce,

Thanks for being a Treehouse student! We just created some new tools to help you stay on track.

Create your perfect learning experience

Tell us what days and times are good. Treehouse will help keep you on track and commit to a schedule.

Set Your Schedule →

Enhance your learning experience

Update your profile

Peers and prospective employers want to know who you are while they follow along on your learning journey. It's a great way to build rapport.

Connect your social accounts

Now that you've gotten a start coding, connect your GitHub account and your projects will automatically show up on your profile! Web presence is a vital part of a developer's resume.

Set your goals

Goals help us send you concrete steps and encouragement. Also, when you explicitly state your goals, you'll find additional motivation to reach them.
